

P4K INSTRUCTIONAL FOCUS

If P4K strengthens teacher practice through targeted PLCs focused on designing and implementing clear, student-friendly learning targets and using the 3E Model—especially during center-based literacy instruction during the Explore phase and checking for understanding at the Evaluate phase—then students will benefit from greater instructional clarity about what they’re learning, increased engagement through hands-on, differentiated experiences, and meaningful feedback that supports progress toward IEP goals and grade-level standards.

V I S I O N

Our vision is to cultivate and sustain a safe, welcoming and nurturing learning community that promotes access, equity, and opportunity by upholding values such as: respect, inclusivity, and an appreciation for cultural and linguistic backgrounds of all students and families. It is our goal to provide students with rich, rigorous learning experiences by equipping them with academic and social emotional skills at their entry points by preparing them for success in their personal lives and educational careers.

2025–2026

Our mission is to create an inclusive learning environment that builds a solid foundation, promotes independence, and inspires life-long learning by fostering core values of safety, problem solving, being on task, demonstrating respect, and teamwork.
